

GRAYSON COUNTY METROPOLITAN PLANNING ORGANIZATION

FY 2025

ANNUAL LISTING OF OBLIGATED PROJECTS

FEDERAL FUNDS OBLIGATED REPORT

Submitted to the Texas Department of Transportation – March 21, 2026

"Obligation" and Reimbursement of Federal Funds

Funding for projects is programmed or reserved until a project is "obligated". Obligation is a way of ensuring that actual cash is available to pay for project expenditures. Obligation of funds occurs on a project phase basis (i.e. design, right of way or construction). Key activities under each phase will trigger obligation of funds. Typically, these are critical points at which commitments are made, but expenditures have yet to start. Such items as advertisement of consultant or construction contracts and preparing offers for property acquisition are actions which will obligate funds.

Before an agency can obligate funds, it must have approval to do so. In the case of highway and/or streets projects, the authority to approve the obligation of funds is passed from the Federal Highway Administration (FHWA) on to the Texas Department of Transportation (TxDOT). TxDOT has specific processes that must be followed for an agency to get to a point in which funds can be obligated. These vary depending on the program, but generally include submitting a "project authorization request" and/or entering into an Agreement with TxDOT. For transit related projects, the lead agency for the project must transmit specific information directly to the Federal Transit Administration (FTA).

Once an agency has authorization to proceed with a project, it can obligate funds. Every federal program will have specific time limits in which funds must be obligated.

Federal funding is typically transferred to an agency on a reimbursement basis. Therefore, the agency must ensure it has adequate cash flows to cover planned project expenditures. Typically, once expenditures are incurred, the agency can request reimbursement for those costs. If the agency is required to provide matching monies to the federal funds, those must also be expended. Once the project is complete, the lead agency may have to conduct an audit to ensure funds were spent in accordance with the grant or funding program guidelines.

This document was developed by the Grayson County MPO for informational purposes and is not warranted for any other use. The information contained in the document was provided to Grayson County MPO by the Texas Department of Transportation and the transit provider in the Grayson County MPO region.

The FY 2025 ALOP is split into grouped and individually listed projects. Grouped projects are projects that, due to their scale or type, do not need to be individually listed in the TIP or STIP. For more information, please refer to the [STIP Handbook](#).

The table below defines the columns included in the FY 2025 ALOP:

Column Name	Definition
FAPN	Federal Aid Project Number
CSJ	Control Section Job Number
MPO Project ID	The MPO Project ID referenced in the STIP (not applicable for grouped projects)
Project Sponsor	Agency responsible for carrying out the project
Project Name/Facility	Name or facility of the project
Limits from	Beginning termini
Limits to	Ending termini
Project Description	Description of the work involved in the project
Funding Categories	Funding categories associated with the project
Phase of Work	Phase of work as identified in the STIP (not applicable for grouped projects) Abbreviations: C – Construction, E – Engineering, R – Right-of-Way
Federal \$ in MPO TIP	Amount of federal funds requested in the TIP (not applicable for grouped projects)
FY 2025 Net Increase in Federal \$	Amount of federal funding obligated during FY 2025
Current Obligation of Federal \$	Cumulative amount of federal funding obligated
Federal \$ Remaining and Available	Amount of federal funding remaining and available for subsequent years
